

MILK WAR ENDS; AGREE ON PRICE

6 KILLED, 32 ARE BADLY BURNED IN GASOLINE BLAST

TEXAS COMPANY PLANT IS SCENE OF BAD EXPLOSION.

HAD NO WARNING

Workers Caught in Blazing Oil; Property Damage Held \$800,000.

[BY ASSOCIATED PRESS]

Port Arthur, Tex.—Inquiry to determine the cause of a terrible gasoline still explosion which took a toll of at least six lives at the Texas company plant here yesterday was expected to start today.

Enveloped by flames from gasoline, two men were roasted to death, four others were fatally burned, five were injured so seriously they were not expected to recover and 27 were less severely hurt. Fire which followed the explosion resulted in damage to the refinery estimated at \$800,000.

Officials last night were unable to assign a cause for the explosion in one of a battery of four stills, each carrying an internal pressure of 400 pounds. Thousands of gallons of gasoline in the stills and three other batteries nearby were destroyed. An investigation by state officials is being conducted.

Hundreds of employees were passing to and from work, with the changing of the shifts, when the heavy steel tank of still No. 25 split, without the hiss of escaping gas which employees said usually precedes such an explosion.

Several men in the vicinity were enveloped in flames, which spread over the ground and equipment, destroying the nearby stills. Their clothing ablaze, the workers ran until they became exhausted.

Aware of the disaster when they heard the detonation of the blast and saw the smoke rise skyward, residents of Port Arthur hurried to the plant and rescue workers rushed the injured to the hospital and emergency station in ambulances.

SCHOLLER NAMED TO STATE BOARD

Janesville Optometrist Appointed by Governor as One of Examiners.

[BY ASSOCIATED PRESS]

Dr. Joseph H. Scholler, Janesville, has been appointed a member of the state board of examiners for optometrists.

The board was organized by Governor John J. Blaine. Word to this effect was received Tuesday by Dr. Scholler. The term is for five years, ending Aug. 8, 1925.

Dr. Scholler has been in the profession of optometry for 15 years. He is a member of the American Association of Optometrists and a member of the Wisconsin association of optometrists.

Dr. Scholler was probably the strongest advocate in the state for higher education for optometrists, and today although the board is a discretionary one, it is a recognition of his work.

ANOTHER QUAKE JARS JANESVILLE; FEAR MANY DIE

[BY ASSOCIATED PRESS]

Tokio—Fifty persons are believed to have been killed in the earthquake which struck the city and the outlying districts in today's earthquake, while many persons were injured. No casualties among foreigners have been reported.

SHOCK HEAVY BUT NOT LONG; AMERICANS SAFE.

[BY ASSOCIATED PRESS]

Tokio—The earthquake which rocked Tokyo and vicinity yesterday morning, the first heavy tremor since the disastrous convulsions of last September, occurred at 5:45 of Sept. 1 in intensity, but was comparatively brief in duration.

The Imperial hotel, filled with American travelers, was as a result of reconstruction necessitated by the September quake, quickly emptied as the hotel trembled and shook. Near panic ensued in the streets of Tokyo this morning.

Not during the quake, but during the reconstruction, the city was a scene of confusion. Thousands of residents of Tokyo were eating breakfast in the streets of Tokyo this morning.

PARLIAMENT OPENS AMID SCENES OF ANCIENT SPLENDOR

RISE OF LABOR POWER FAILS TO AFFECT ROYAL POMP.

MESSAGE CANDID

Wording Held Clever Move by Baldwin to Spike Opponents' Guns.

[BY ASSOCIATED PRESS]

London—The parliamentary lobby today decided to bring up the question of confidence in the Baldwin government for discussion during the opening of the session to the speech from the throne.

[BY ASSOCIATED PRESS]

London.—The probability of a labor government's early accession to power in no way dulled today the ancient splendor and pageantry which for centuries have been associated with the opening of the British parliament.

At 10:30 a coach, a gorgeous equipage of dull gold and shining glass that rocks back and forth on its great leather wheels after the manner of the old American stage coaches, rolled behind eight bay horses along the troop-lined route from Buckingham palace to Westminster.

There were many in support of the program as there were of objections. The plan involved an estimated expenditure of \$650,000 for drainage in the bottoms of the Mississippi river.

STATE CHARGES HE ENDED TWO LIVES

Warren J. Lincoln and his wife.

[BY ASSOCIATED PRESS]

Chicago.—The milk strike, which began Jan. 1, was ended early today when producers and dealers agreed on a price of \$2.67 1/2 a hundred pounds for a three months' contract.

The price agreed upon is a compromise between \$2.60 offered by the dealers and \$2.75 for six months or \$2.85 for three months demanded by the farmers. The settlement was reached after a meeting which lasted five hours, held through the efforts of Dr. Herman N. Bundesen, health commissioner, President Frank T. Holt, of the Producers, who include dairy farmers in Wisconsin, Illinois and Indiana, stated that milk would be delivered at the bottling plants in the country 100 percent by Wednesday morning.

Dealers have been relying on supplies from a distant point to take the place of milk which dairy farmers refused to sell at the price offered. Charges were made by producers that the milk brought in was not meeting the requirements of the health department.

During the strike, pickets of dairy farmers attempted to dissuade farmers who delivered milk to the country bottling plants and deputies were called in some instances to prevent dumping of milk destined to the city.

Health Commissioner Bundesen acted as intermediary during the meeting, which resulted in a settlement. Both sides first convening in separate sessions early last night.

Although the milk strike in Chicago has been settled, Janesville, Wis., is still in a state of confusion. The Bowman Dairy company are concerned about the price announced for milk produced in the "outlet," or in Wisconsin. An inquiry into the situation is being made.

The plants at Janesville, Clinton and Brooklyn are classed as manufacturing plants and the price is expected to remain at \$2.60 a hundred, reads the press answer.

This settlement will not satisfy all of the producers in Southern Wisconsin, according to dairymen and the Farm Bureau.

The Wisconsin dairymen in Rock and Walworth counties are still in a state of confusion. The settlement is being questioned.

***The New Frocks Indulge In
Many Decorative Touches***

Tiers, drapes, touches of lace, flounces, pleats and unusual sleeves and necklines vary these new and charming frocks. Each is true to the prevailing silhouette, slender in line, and exceedingly graceful, yet availing itself of individual touches to make it distinctive. In crepes, satins, Georgettes and cloths, in dark shades for street wear, as well as such light tones as tan, gray, rose and green for afternoon and dinner wear. Each is truly delightful, and pleasantly low priced.

Spohn-Fox Wedding—A pretty wedding took place at 8:15 Tuesday morning at St. Patrick's church, when Lillian Estella Spohn, daughter of James P. Spohn, Sr., 620 Chestnut street, and William Edward Fox, Porter, were united in marriage. The bride was assisted by Desmond Spohn, cousin of the bride.
The bride was a gown of royal blue silk chiffon, trimmed with silver lace and silver rosebuds, with a silver broadened silk picture hat, and silver slippers to match. She carried an arm bouquet of pink roses. The bridesmaid wore a gown of brown satin crepe with brown velvet and gold lace. She carried an arm bouquet of Opheelia roses.

The bride is a lifelong resident of Janesville and a graduate of the local high school. Up to the time of her marriage she was a stenographer at the Gazette office.
After a short honeymoon in Chicago and other points, Mr. and Mrs. Fox will be at home after Feb. 1 at 422 Bluff street.

The following out of town guests were in attendance at the wedding: William H. Mary Irene and George D. Spohn, Madison; the Rev. J. E. Hartin, Edgerton; Mr. and Mrs. J. J. McCarthy, Margaret, Ann, John and Edward Ford, Stoughton; Mr. and Mrs. L. J. Barrett, Evansville; and Miss Marie Fox, Chicago.

Dixon-Wolf-Wedding—The wedding of Miss Margaret Dixon and Herbert N. Wolf occurred at the St. Patrick's church at 7:30 Tuesday morning, Dean Ryan officiating. Miss Dixon is the daughter of Mr. and Mrs. M. J. Dixon, R. F. D. 4, Janesville, and Mr. Wolf is the son of Mr. and Mrs. Paul Wolf, Random Lake, Wis.
The bride was attended by Miss Florence E. Conway, Milwaukee, and the best man was Thomas Cullen, Janesville.

The bride's gown was white velvet with rhinestones, and her hat was also of white velvet combined with rhinestones. She carried a shower bouquet of white roses and lilies of the valley.
The bridesmaid wore a dress of French blue velvet trimmed with white rhinestones and carried a bouquet of Opheelia roses. Her hat was of gold lace combined with blue rhinestones.

After the ceremony, a wedding breakfast was served to 55 guests at the home of the bride's parents which was decorated with yellow Jonquills.

The bride and groom are both well known in Janesville. The bride was stenographer in the law offices of Nolan, Dougherty and Grubb. The groom was a teacher in the high school here at one time and at present is in the furniture business at 409 West Milwaukee street.

They will take an extended wedding trip and will be at home later at 914 School street.

The following guests from out of town attended the wedding: Mr. and Mrs. J. P. Wolf, Elkhart Lake, Wis.; Flynn, and Mary Bucken, Belvidere, Ill.; Fred Collier, Peru, Ind.; and Florence Conway, Milwaukee.

Dancing Party—The dancing party given by the Jackson school Parent-Teacher association Friday night was the most enjoyable ever held. It was attended by 50 couples. Plans are being made to give a hard times party in the future. On Feb. 14 a moving picture will be given under the auspices of the Gazette. The proceeds of the picture are to go toward buying pictures for the two rooms.

Dinner-Bridge—Miss Gertrude Airs, 571 North Washington street, entertained Monday night at a 5 o'clock dinner. Bridge was played during the evening, and prizes were won by Mrs. B. J. Drummond and Mrs. K. L. Smith, Lansing, Mich.

Mothers' Meeting Thursday—Mrs. J. A. Melrose will be in charge of the mothers' meeting to be held in

the basement of the public library at 230 p. m. Thursday, under the auspices of the W. C. T. U. A good program has been prepared, and all mothers are invited.

B-D Club with Mrs. Duffy—Mrs. Bernard Duffy, 417 North Pine street, will entertain the B-D club Wednesday afternoon.

Post-Nuptial Party—Miss Pauline Lehniger, 1015 West State street, will give a post-nuptial party in honor of Mrs. Charles Hanson, formerly Miss Hazel Palmer.

Standard Bearers—The Standard Bearers of the M. E. church met Monday night at the home of Miss Marion Overton, 708 Milton avenue. Twenty members attended. Playla Lehniger had charge of the lesson and Pauline Case of the devotions. A tray lunch was served at 10:30.

Community Aid—The Community Aid of the Presbyterian church will meet Wednesday at 3 p. m. in the church parlors. A business meeting will be held, and report of the Christmas sale and plans for the coming year will be discussed.

Congregational Church Day—Thursday will be church day at the Congregational church. Division No. 2 will meet at the home of Mrs. William Arnold, 321 South Main street. Supper and social will be held at the church at 6:30, singing and discussion at 7:15.

JEFFERSON

Jefferson—The American Legion will present a home talent play Wednesday night at the Armory opera house, entitled, "It Pays to Advertise." Between the first and second act, Miss Carmen Haberman and Miss Marion Wender will entertain with classic dancing. Following the second act a quartet, consisting of Arthur Vincent, John Vincent, Joseph Haberman and Herman Steingraber, will sing. The cast includes Carmen Haberman, Herman Steingraber, Iva Gross, Joseph Haberman, Arthur Vincent, John Vincent, Grace Harrison, C. D. McCune, Franklin Ladden, Alice Wendt, Erwin Jagerstatter and Charles P. Lane. This is one of the series of entertainments which will be given by the Legion. The second number of this course will be presented in a few weeks by Miss Sarah Mildred Willmer, dramatic reader. The third number is Rogers, operatic tenor.

Mr. and Mrs. William Mair, Monmouth, Ill., were guests at the James Mair home, 515 Monroe street.

R. M. Postwick, William Blatz and Miss Katherine Shields of the J. M. Postwick and Sons, South Main street, are in New York on business.

Mrs. J. T. Pember, Mrs. Aubrey Pember, 103 South Jackson street, will entertain Saturday afternoon at 3:30 at a musicale at the Pember home.

Mrs. J. B. Hakesley has just come from the south to spend the winter with her sister, Mrs. Alberta Pierce, 615 Prairie avenue.

C. A. Tolson, 1315 South Second street, is spending a part of the week in Chicago.

Mr. and Mrs. Harry McCleure, Mr. and Mrs. Charles Tontou, 308 Jackson street, gave a dinner party Monday evening in honor of Mr. and Mrs. Harry McCleure, Minneapolis, who are visiting in Janesville.

The Ladies society of the Congregational church will meet Wednesday afternoon at the church. Hostesses will be Mrs. P. C. Burchard and Mrs. G. W. McMillen.

The Lend-a-Hand society of the Congregational church will meet Thursday afternoon at the church. Hostesses will be Mrs. P. C. Burchard and Mrs. G. W. McMillen.

Look for the Label

Like every successful product, Kraft Cheese has many imitators. But they can imitate only the size and shape of the package, the quality and flavor is quite beyond them. It is flattering of course to have Kraft Cheese imitated, for only the best is ever imitated, but it's sometimes very disappointing to our customers. So to look for a tin foil loaf is not enough, you should see that it carries the Kraft trademark.

Four varieties: American, Pimento, Swiss and Brick, sold by the slice, pound or 5-pound loaf at about the price of the best bulk cheese.

SALVATION ARMY PLANS ALTERATION

\$1,000 Will Be Expended in Improvements of Janesville Quarters.

Following a conference with Earl Jeffrey, Milwaukee, divisional program director, the Salvation Army executive committee voted at a meeting Monday afternoon to make improvements on the building to cost about \$1,000. In addition expense of putting on a new roof and other minor repairs will be taken care of by divisional headquarters.

The improvements will be made on the first floor of the south half of the building, part of which has been occupied by a transfer company. Four large rooms will be put in shape to be used by the day nursery, which now occupies three rooms on the second floor. This evening a tentative list of improvements will be sought by J. P. Hammarlund, chairman of the headquarters committee.

Mr. Jeffrey reported that \$45 has been raised in Milton and Milton Junction recently to apply on the quota from the northern half of Rock county. Evansville has raised \$15. Both communities expect to add to these amounts. Nothing has been done by Edgerton thus far. Funds raised in outside towns apply on the quota for state, divisional and territorial activities. Asks from the northern half of the county.

The divisional director promised that additional workers will be sent to this city at once in order that the work here may be put on the efficient basis proposed at the time of the drive. The budget makes for five workers, whereas but three have been provided by headquarters. Additional help has been employed a portion of the time but has not proved satisfactory.

A complete report of activities and expenditures for the first quarter, together with a summary of returns, copy by-laws governing advisory board and other information is to be compiled by the secretary and sent to advisory board members, drive workers and heads of all organizations, having an interest in social welfare.

Elimination of Credit Urged

Milwaukee — Standardization in retailing, advertising, elimination of credit systems, business and insurance risks, and conditions in Wisconsin, furnished the principal topics for discussion at the opening session of the seventh annual convention of the Wisconsin Retail Dry Goods Association, here today.

In the pioneer days of Wisconsin retail merchandising, extension of credit was not only a great convenience but a necessity for economic reasons. Now-a-days, generally, the reverse is true. Credit extension is not convenient nor necessary. This is the brief of a message brought to the convention by Otto Dahle, merchant, Mount Horeb.

Mr. Dahle credited the pros and cons of credit merchandising from personal experience and said elimination of the credit system from retail business was desirable.

\$1,600 Spent on Camp Rotardale

Cost of maintaining Camp Rotardale, the boys' vacation place at Lauderdale lake operated by the Janesville Rotary club, was \$1,679.74 last summer, it was announced at the regular Rotary meeting at the Grand hotel Tuesday noon. Of this \$302.06 was for permanent improvements, \$751.36 for commissary, \$150 for leader's salary, \$400.35 for camp operation. The income of the camp was \$304.28.

Permanent improvements last summer were a hot water heater, ice box, boats, sink and cesspool, sulfur cannon, tower lumber.

Two meetings were taken in by the club, Tuesday. They are Elroy Wright, Chevrolet Motors, and Edgar Leach, Janesville Laboratories.

The Janesville club has been invited to the charter presentation ceremonies at the Watertown club Wednesday night.

"Miss America" Declares Tanlac Wonderful Health Giving Tonic

Miss Campbell in "Miss America" gown which she has won on two occasions.

Photograph by Atlantic Photo Service.

Miss Mary Katherine Campbell, twice proclaimed "Miss America," has taken TANLAC and endorses it in a statement recently given to the women of America through International Travelers Inc., distributors of this great tonic. In this statement, Miss America declares that Good Health is the basis of all Beauty, and advises women who would be beautiful to "first find good health."

Her complete statement as given is as follows: "I consider it a great privilege to be able to tell the thousands of women everywhere what a great tonic TANLAC is. Health is the basis of all beauty. Without good health, one is apt to be run down, nervous, underweight, high-strung, anemic. Indigestion drives the roses from a woman's cheeks and robs her of that radiant quality of womanhood that is real beauty."

"I have taken TANLAC and I do not hesitate to say that it is a wonderful health-giving tonic. It has brought relief and good health to many women. The plot is laid on board ship and the theme and action is adapted to production by legion posts. It will provide an opportunity for the best local talent stage. The legion is expecting a big turnout when volunteers for the cast are called, about Feb. 14, when an expert coach will come here to assume charge of rehearsals."

The show comes here highly recommended by legion posts.

Committees are to be appointed by John W. Cullen, Jr., commandant, to manage the details of the production. The legion is working on plans to have a legion orchestra play the score.

On Jan. 22, the Janesville post will initiate one of the largest classes in its history.

YOUNGER SENIORS ORGANIZE CLASS
Younger seniors of the Y. M. C. A. were organized as a discussion group at a meeting held Monday night, under the direction of J. C. Koller. Leonard Townsend was elected temporary chairman, and Merrill Puerling secretary. Two committees, one on membership and attendance, and the other for the selection of a course of study, were named. The latter, consisting of George Abraham, Frank Harding and Miss Abrahams, Frank with Mr. Koller and selected the subject, "Christian Teaching on Social and Economic Questions." About 10 were present Monday night, but the complete membership roll will not be announced until after the meeting next week.

Policeman Files Bankruptcy Plea

Madison — Voluntary petition in bankruptcy was filed in United States district court here Tuesday by Fred J. Hudler, Whitewater, Wis., giving liabilities at \$17,000 and assets at \$14,000.

L. R. Sherwood, Janesville, also filed bankruptcy petition.

L. R. Sherwood was recently appointed a member of the police department here. He formerly operated a lunch room and also ran a bus line.

To Hospital.—Mrs. Herbert Babcock, Milwaukee, was taken to Mercy hospital Tuesday afternoon in the city ambulance.

Chicago. — Telegraphers on the Chicago, Milwaukee and St. Paul railway are taking a strike vote. It was learned today.

GETS 18 MONTHS ON BOOZE CHARGE

Arrested and convicted on a liquor charge for the second time within five weeks, Frank Tail was sentenced to one year flat in jail, and in addition a fine of \$200 or six months additional, in municipal court Tuesday. The charge against him was found, about a half-gallon of it, Chief Newman said. Henry Chamberlain's house on North La. street, in back of the Janesville hotel, was also visited but nothing was found.

The raids were taken part in by every member of the police department, all the night men joining forces with the day group, the party starting about 7 a. m.

Late Monday afternoon, Sgt. Charles Handy arrested Joe Burns, a man on North Main street for intoxication and he was taken to jail and costs of \$6 days by Judge H. L. Maxfield. Unable to pay, he took the jail term.

Tail was the only one arrested in a series of raids conducted early Tuesday morning by the police in the district around the Northwest corner depot. Practically every room in the old European hotel was visited and it was in "tail's room" that liquor was found, about a half-gallon of it, Chief Newman said. Henry Chamberlain's house on North La. street, in back of the Janesville hotel, was also visited but nothing was found.

The raids were taken part in by every member of the police department, all the night men joining forces with the day group, the party starting about 7 a. m.

Legion to Stage Musical Comedy Here, Feb. 28-29

Janesville lovers of home talent theatricals will be treated to another show when on Feb. 28 and 29, the Richard Ellis Janesville post of the American Legion will stage "All Aboard." The show is a musical comedy and probably will be staged at the new high school auditorium.

The cast probably will consist of 100 or more. The plot is laid on board ship and the theme and action is adapted to production by legion posts. It will provide an opportunity for the best local talent stage. The legion is expecting a big turnout when volunteers for the cast are called, about Feb. 14, when an expert coach will come here to assume charge of rehearsals.

The show comes here highly recommended by legion posts.

Committees are to be appointed by John W. Cullen, Jr., commandant, to manage the details of the production. The legion is working on plans to have a legion orchestra play the score.

ICE MACHINE IS VOTED BY BOARD

Refrigerator Also Planned for School Cafeteria—Open Bids Jan. 30.

Informal recommendation that the old high school building on South High street be turned over to the city for use as a memorial building and community center, and the purchase of an ice machine and refrigerator occupied most of the time at the monthly meeting of the board of education at the high school Monday night.

During its original intention into words, the board accepted, without a dissenting vote, the motion of Mrs. D. W. Holmes, of the cafeteria equipment committee, that an ice machine be purchased and installed. There was little discussion, except as to the type of machine and cost of operation, and these details were left to the committee. The board then proceeded to advertise for bids to be submitted to the board on Tuesday, and they will be opened Wednesday, Jan. 30, at 1:30 p. m.

It was stated that it was not for the fact that it would be possible to pay for the equipment out of the returns from the cafeteria. The board would not be making the recommendation now. However, there is now \$100 on hand which has accumulated from the sale of surplus school property. The board would like to see this money now being made which will in time reimburse the board for its outlay. It is estimated that the cost of the body that most of the returns will come from the rental of the cafeteria to outside organizations desiring to hold banquets there.

No extension of the school year has been made, but all of the three types considered, the ammonia, carbide and electric, and the cost of operation of any of them small in comparison to the cost of ice. No statement as to which type favored was given.

Plans for Operation.—Though the plan of the board is to eventually pay for the equipment purchased through the sale of surplus school property, it is not yet decided whether food to be served to students be raised. According to a plan submitted by Supt. P. O. Holt, which met with the favor of the board, the entire cafeteria will be under the control of the domestic science department, which will superintend the preparation of meals and do the purchasing. Accounting will be done by the domestic science department, which will insure the entire organization being strictly within the jurisdiction of the school. Some help, to do the catering, will be required, but the profits will be more than pay operating expenses, it was said. No outside organization will be permitted to bring its own food to the school, and the cafeteria will be under the control of the domestic science department, which will superintend the preparation of meals and do the purchasing.

Some help, to do the catering, will be required, but the profits will be more than pay operating expenses, it was said. COOKING SCHOOL OPENED TODAY

Mrs. Brown Talks of Under-Nutrition and Makes Some Tasty Articles.

PROGRAM THIS AFTERNOON
Discussion—
Foods and their relation to health of family
Demonstration—
Milk dishes
Deep fat frying
Quick breads.

PROGRAM FOR WEDNESDAY
2:30 p. m. at Sheldon's Hardware store.
Discussion—
Pastry and other desserts.
Demonstration—
Different types of pies
Cream puffs
Apple dumplings.

Starting with a general discussion of what constitutes a food and its relation to the health of the family, Mrs. Margaret E. Brown, conductor of the Gazette free cooking school, gave some valuable suggestions to the large number of women who attended the opening session at the Sheldon Hardware Company's store, South Main street, this afternoon.

The discovery that people had developed physically which was brought out during the war, started various organizations making investigations, according to Mrs. Brown, and in almost every case the results were found to be under-nutrition. Various diseases, including rickets, were discussed, and this was followed by a demonstration of the pasteurization method, and the preparation of cream sauces, which were discussed in over coming under-nutrition.

The importance of cooking foods at the correct temperatures was emphasized throughout the talk, and incorrect temperatures and methods of cooking were given as the reasons that food tried in deep fat were considered hard to digest.

There is no little work about getting a cooking school plant together, Mrs. Brown said, and it is up to the housewife to make a kitchen everything at hand in the pantry. It is more than a mere incident, but there are many contributors to the success of the school. The kitchen is kept clean with the Kitchen Kleenzer, the gas stove is fed with fuel from the New Gas Light company, and the refrigerator is kept clean with the Sheldon Hardware company, fruit and vegetables are delivered by Hanley-Murphy company, and the milk is delivered by the city.

Shurtliff furnishes the milk and cream and the breads and biscuits are made with Champion baking powder. The flour is supplied by the Reads and pastries, furnished by T. A. Roessling; Thomas J. Webb is the maker of the blend of coffee, and the sugar is supplied by the housewife from Bestwick's and the rest of the food will be with silverware from Bradley B. Conrad.

Then good cooking—the kind that saves time and money—was the subject of the talk. Mrs. Brown said that the kind of food that is served in the home is the kind that is served in the hotel. The hotel food is the kind that is served in the hotel. The hotel food is the kind that is served in the hotel.

Retiring Head of Y. W. C. A. Is Given Banquet

Discussion of the 1924 budget and plans for the annual meeting of the Y. W. C. A. board of directors at its regular meeting Monday night. The business session was held in the home of Miss Gertrude Cobb, 223 Jackson street and followed a dinner party for 22 at the Colonial club with Mrs. Francis C. Grant and Miss Gertrude Cobb as guests.

Mrs. Mary Barker, outgoing president as guest of honor, Y. W. colors of blue and white prevailed in table decorations. Place cards here placed in the center of the table. A bound loose-leaf notebook was presented to Miss Barker. Each member of the board wrote rhymes to be placed in the notebook.

The banquet will be presented at the annual meeting. Miss Eleanor Copenhagen, regional secretary for the industrial and business girls' department, will speak. Dinner will be served at 6:30 in the Y. M. C. A. and music will be furnished by the orchestra of the state school for the blind. Reservations are to be made by Saturday, Jan. 19, at the Y. W. C. A.

Plans for entertaining the state Girl Reserve Conference in February were discussed. The dates have been changed to Feb. 22-23 and 24. Delegates from all parts of the state will total around 150.

Special committees to plan for the annual meeting were named as follows: Invitations and tickets, Mesdames George Jacobs and J. T. Mitchell; decorations, Miss Ella Jacobson; Sara Richardson; Mary Mount, Helen King and Mrs. Lewis French. The membership committee, Mrs. Paul Owen, chairman, is in charge of program arrangements.

COUNTY BOARD TO TACKLE PROBLEM OF SNOW REMOVAL

(Continued from Page 1)

supervisors of this northern county favored the repeal of the weight tax, and substituted a gasoline tax of 3 cents a gallon for motor vehicles. The Rock county board filed the letter.

Dues Ordered Paid.
The yearly dues of \$5 to the state association of county boards was ordered paid and the supervisors appropriated \$75 for Chairman M. J. Paulson to attend the convention to be held in Wisconsin, Jan. 16 to 18.

To avoid duplication of appropriations, several resolutions passed at the last session, including the \$20,000 appropriation for the county road purposes were expunged from the records. All amounts were provided for in the 1924 bridge fund.

Amount Carried Over.
On the motion of H. E. Mosely, Beloit, the 1923 bridge fund of \$14,000 was carried over to 1924 as a county bridge fund to avoid the money going into the general fund. No other money was needed or provided for in the 1924 bridge fund.

A motion was presented by L. A. Markham for the county to appropriate \$250 to carry on a county wide inspection of honey bee colonies in Rock county. Under the plan, the state pays \$500 to the county \$250 and all colonies are inspected until foul brood and other diseases are eliminated. Foul brood spreads from infected bees to strong colonies. The reason the thrifty bees attack and steal the infected honey from the diseased bees, A. J. Horth, and others representing the beekeepers were present and spoke for the appropriation.

Almost All Favorable.
A canvass made by the association showed that all supervisors, with but one exception, who were interviewed, favored the plan. "I think this matter the county agent should present," declared E. D. McCowan, Janesville, who was supposed to be an authority on such matters.

"I am in favor of it," declared J. C. Wilson, "and if the office of the county agent is asked, they will be held over two weeks for action." The motion to refer the matter to the county agent for a report was passed.

Vote Office Fund.
The last issue of paying bills for the office of E. A. Taylor, supervisor of assessments, was taken up in the passage of \$18.30 for office supplies. There were 12 votes against the resolution, supervisors claiming the assessor should order his supplies through the purchasing agent of the county.

The plan of Manager Oscar Nelson, Chamber of Commerce, for snow removal which he is to suggest to the county board at 2 p. m. Monday, is to have the county purchase sufficient machinery to properly care for the roads. Then the several municipalities will be given the right to purchase their own machinery, maintaining and storing it and doing the actual work of snow removal.

The plan is now being broached to the several county representatives of these localities will dine with Mr. Nelson here Wednesday noon.

Drill Team Meets.—The drill team of the Richard Ellis Janesville post of the American Legion will meet at the armory in the old high school building at South High street from 8 to 9 p. m. Tuesday. Each member has been requested to bring another.

JACOBS ELECTED TO SCHOOL BOARD

Kills Out Unexpired Term of Muggleton—Street Names Are Discussed.

Rex N. Jacobs, 12 Harrison street, was unanimously elected by the city council, Monday night, to succeed Charles A. Muggleton as school commissioner for the Third ward, filling out the latter's unexpired term. Mr. Muggleton retired from the school board recently on account of moving from the Third to the Sixth ward. Mr. Jacobs is a bond salesman and former purchasing agent for the Janesville Machine company.

His name was placed in nomination at the council meeting by Councilman C. Starr Atwood and when there were no other nominees suggested, Councilman William McCue moved that the clerk be instructed to cast the unanimous ballot for Mr. Jacobs. This motion carried.

Mr. Jacobs is a brother of Councilman George A. Jacobs, who was absent from Monday night's meeting. Mr. Jacobs is a bond salesman and former purchasing agent for the Janesville Machine company.

City Manager Henry Traxler brought up the matter of duplicate names of several streets in the city and asked if any change is to be made in the names it should be done at this time as new street signs are now being made by municipal employees. He mentioned the following confusing duplications of names:

Park street and Park avenue, Center street and Center avenue, West bluff, North and South bluff streets, Washington street and Washington avenue, Jackson street and McKee street, which are really one street.

Councilman Atwood said he believed the suggestion worthy of serious consideration and recommended that the city manager be authorized to make the changes. Mr. Traxler said a change in street names would be the only thing necessary as house numbers would continue as at present. Councilman Mrs. Emma Manning declared that South Jackson street should be South Jackson all the way, and not McKee boulevard from the bridge south.

The Sinclair Refining company, Chicago, was granted permission, subject to approval of the industrial commission, to install an oil tank station at Post and North streets upon motion of Councilman Atwood. J. M. Chute, 623 North Washington street, will be allowed to install a second curb pump in front of his place, as a result of passage of resolution by the same councilman.

The following were granted taxicab drivers' licenses: Frank Burdick, Y. M. C. A. formerly of Monroe; George McCarthy, 400 Linn street; Charles Press, 1515 Sharon street.

Payment of vouchers 623-667 was approved on motion of Councilman McCue. The city manager mentioned a proposal to have the city's books audited but no action was taken.

ENKs Tonight.—A regular meeting of the Janesville Enk lodge will be held in the lodge rooms at 8 p. m. Tuesday.

EDGERTON

MRS. CECIL DAVIS
Correspondent. Phone 250 White.
Edgerton.—The Frank Verdon of German church will marry Thursday night with Mrs. Carl Shoemaker on South Main street.

The monument circle donated a wheel chair to Memorial hospital. Mr. and Mrs. Henry Wesendonk and son, George, spent Sunday in Milwaukee.

The Men's club of the German church met Monday night at the library. A box social and bazaar formed the entertainment. Prices were taken by Mrs. Adolph Drager, Miss Alma Schoemaker, Mrs. William Venske, Emil Doro, Charles Dallman and Henry Schachtel.

Installation of officers of the Blue lodge will be held Tuesday night at the Masonic temple. Mrs. Ed. Grassman was hostess at a 6:30 dinner to the A. G. S. club Monday night at her home. Bridge was played by Mrs. A. J. Dickerson winning high score.

P. M. Billington spent Monday in Milwaukee. The Isaac Walton league will banquet at library hall Wednesday at 7 p. m. Mrs. W. A. Borncs returned Tuesday from a visit with relatives at Burlington.

The Skat club will meet Thursday night with A. G. Anderson. The Knights of Pythias were entertained Monday at 6:45 dinner at the lodge rooms. Installation of officers followed the dinner. Those installed were: Fred Holt, C. C.; George Lynta, V. G.; Edson Ogden, M. W.; Almer Anselth, M. B.; Arthur Larson, R. G.; F. W. Southworth, Prelate; Jess Martin, K. R. S.; Carl Kepp, M. A.; and Fred Haylock, O. G. Roy Farman was installed as deputy, G. C.; Harry Armit as deputy grand prelate and W. A. Borncs as deputy G. M. A. were installing officers.

The Progressive Study club met Tuesday with Mrs. P. W. Palmer. Mrs. Almer Anselth was in charge of the program. Miss Sue Meyer, Chippewa Falls, will take charge of the physical education of the high school, beginning Jan. 28. Miss Orville Kohlhepp, the present teacher, has accepted a position at the new high school at Hibbing, Minn.

The Pythian Sisters will have a business meeting Friday night at the lodge rooms.

COLORED PASTOR PREACHES WEDNESDAY
The Rev. Mr. Cook, Chicago evangelist, will preach at Spring Brook chapel Wednesday at 7:30. Mr. Cook is a colored minister and wishes to gather his people together in religious worship in this city for the evening. The colored people of the city have no place of worship at present. Dr. Cook is a member of the Methodist church.

Barmon House Dresses

*There is a Charm
in Every Barmon*

We invite you to see the collection.

They are delightfully made in the very newest modes, of the best standard gingham and percales and are notable for their dainty trimmings, and artistic combinations of materials.

There is a Barmon dress for every woman, and every occasion, for home, for dress up, for slim miss and mature matron.

Prices\$3.50 to \$6.95

Mrs. Brown prefers the Barmon house dress and will wear one during her cooking demonstrations at the Gazette Free Cooking School.

Schooff Furnishes the Meats for Mrs Brown's Demonstration

Public demonstrations of this kind demand the very best — there must be no disappointments before an audience. Schooff's meats fulfill these requirements. Schooff's breakfast sausages made from choice bits of little pig pork after an old fashioned recipe that Mr. Schooff has used for years. A dainty and appetizing addition to the morning meal.

Made in bulk, link and little midget sizes.

PIE!

*—How to Make the
Lightest and Flakiest Pie
Crust Will Be Demon-
strated at the*

Gazette's Free Cooking School

The second session of the Free Cooking School, to be held at 2 p. m., will be devoted to a demonstration of pie and cake making. Women of Janesville will be specially interested to see the actual preparation and baking of cakes and pies in which the pure vegetable cooking oil, Mazola, is used for shortening. How the lightest cakes and the flakiest, most delicious pie crusts are easily made by the use of Mazola—you can taste and prove the results for yourself.

The lecturer, Mrs. Margaret E. Brown, will answer all questions about making cakes and pies. As at the first sessions of the school, those attending are expected to bring pencils and pads for taking notes on the new methods and new recipes.

FREE—A beautifully illustrated, 64 page cook book will be given each woman attending the school.

PROGRAM FOR WEDNESDAY

Discussion—
Pastry and other desserts.
Demonstration—
Different types of pies,
Cream puffs,
Apples dumplings.

PROGRAM FOR THURSDAY

Discussion—
Problems of cake making.
Demonstration—
Types of cakes,
Jellies,
Fillings.

PROGRAM FOR FRIDAY

Discussion—
Salads and their relation to
healthful diet.
Demonstration—
Salad dressings,
Salads.

Women conduct the greatest business in the world

—keeping house. Every other business is subsidiary to this gigantic enterprise.

And women are good managers. They make their business show a profit, reflected in the millions of savings and checking accounts owned by housewives.

They are budgeting their expenses nowadays, and paying their bills by check, just as great corporations do. They find it very simple when once the habit is established.

Attend the Gazette Cooking School, and then come to "The Rock County" for all the help a good Bank can give you.

The following items are chargeable at the rate of 25 cents a count the average 5 words in length: Obituaries; Cards of Thanks; Notices of any kind where a charge is made to the public.

Sweeping Away the Ocean.
A former pastor of a Janesville church, now a representative in congress and somewhat in the public eye by reason of having defeated Representative Volstead in 1922, adds nothing of value to the operation and enforcement of the Volstead law by his proposed amendment making it necessary for supplies of liquor to be registered.

One of the difficulties of the administration of the Volstead act and the 18th amendment is the performance of some of those who are strongly in favor of the law but who are in the list of fanatical extremists. They are as bad for the cause of law enforcement and regulation as that other congressman, Ill., of Maryland, who violates every principle of decency in his open advocacy of contempt for the federal statute, is for the wet cause. Mr. Keale, with his liquor legislation, and Mr. Uphaw, with his pledge bank are in that list of those who are doing more harm than good. The law is the law and if a man would violate it without a pledge he will violate it with a dozen pledges. If a man has liquor in his possession illegally he certainly must not make a report of it and if he possessed it legally why register it?

What we need for law enforcement is a higher respect for all laws. The fact remains that we have used the prohibition agent's office as a political dumping place for too many persons who would qualify for no other job under any circumstances. We have some excellent men in the prohibition enforcement service but there are too many others with open palms and still other swivel chair warmers. Nor are we to be satisfied with the reports that "great progress" is being made in the enforcement of prohibition by the office of the commissioner at Washington. That has been told over and over again only to be belied. While chasing around hunting for a pint of poison gin on the hip of some deluded idiot who thinks he is qualifying as a Smart Aleck by drinking it, distilleries are being denuded of stocks for "legal purposes" and it gets to the consumer. If Mr. Haynes will take every man he has, and put them all on the border and where supplies are brought over the line from Canada, and at the landing places from the Bahamas; and then the United States will say to both the nations concerned, Canada and Great Britain, that they are performing an unbecomingly act in permitting liquor cargoes to be cleared for this country, we will have a different tune played in a short time.

Our present enforcement is marked with cowardice and child's play and most of the time, looks like an indulgence in that childish pastime of taking three bites at a cherry. Old King Canute, sweeping back the ocean, has caused several persons to laugh heartily with never a thought that it would have its counterpart in 1923 or thereabouts.

When a Mexican wants to be a candidate he does not throw his hat into a ring but tosses a few automatic revolvers and a couple of bombs.

Canada and Immigration.

The Gazette on Monday printed a short notice to the effect that a former citizen of Rock county, Alexander Galbraith, is in Glasgow, doing special immigration work for the Canadian government. Canada is doing that all over the British Isles and making special inducements for immigrants. News dispatches from Montreal carry the information that the government has made arrangements with steamship companies whereby every immigrant brought to Canada from the British Isles and declaring his intention to settle there, will receive a rebate of \$15 on a third class fare. Northwest Canada is losing its settlers. Several thousand Canadians have come across the border and are making homes in the United States. In the industrial centers as well as in the farming communities. No matter what the advantages claimed for the Dominion may be, the Canadian finds many things in the United States to draw him here. Therefore Canada must perforce put a premium on the immigrant to settle in the Dominion which will be found easier also since the United States quotas from the British Isles are practically filled for the first six months of the year.

After having spent and lost \$20,000 to keep it alive, the backers of the Antigo Weekly Herald have given up the ghost and ceased publication. The Antigo Daily Journal, a remarkably good newspaper, fills the field so well that there is no room for another paper to make a living.

Notice how excellent a likeness the picture of Salmon P. Chase is on the new \$10,000 bill.

The King of Greece from his place of safety in Bucharest might cable condolences to that other monarch who has been deposed, the Emperor of the Ku Klux Klan.

Mr. William Allen White says several of the peace plans presented showed that the writers were as it is said in Scotland "A little in the head." From the one selected he can readily be believed.

The Gazette is in receipt of the midwinter number of the Los Angeles Times, an annual affair, with a year's review much on the same order of the Janesville Gazette's forthcoming number. It is, as one would expect, printed as it is in a city of a half million people and covering

MOTOR CARS OF THE NEW YEAR

By FREDERIC J. HASKIN.

Washington.—The 1924 automobiles are cheaper, better, faster and more durably finished than any of the predecessors. The public this year will be able to purchase motor cars that were produced last year, cars that use less fuel and carbonize less and knock less. During the year just closed many manufacturers reduced the size of their engines, realizing that high efficiency from a small engine is better than low efficiency from a large one. Appreciating that no engine should be subjected to the debilitating effects of dusty air and dirty gasoline and oil, the engine builders have taken steps to filter or purify these three important articles of the engine's diet, and the result will be seen in longer engine life. Designers have given more study and care to the problem of vibration than ever before, and changes are in evidence in a majority of improved types that will reduce this evil.

Lighter weight and smaller cars are coming, for come they must, and they will result in great fuel economy, tires will last longer and the cars will last longer and perform better. The smaller car is needed to facilitate handling in the crowded streets of the city, but is just as necessary for the small town and the country.

Such are statements and predictions of automotive experts in attendance at the New York Automobile Show where 71 out of some 85 makes of motor cars have been exhibited during the opening days of the new year. These experts do not go into the question of how many cars will be constructed this year, or how many cars should be operated in the United States, and as a rule none of them is especially interested in any particular make of car except as it exemplifies a new idea or a new tendency in motor car construction. They are interested in the development and improvement of the motor car as such, rather than as the product of a particular plant or company. In this respect they are very much like horsemen who are interested in the breeding of the thoroughbred.

The year 1923 witnessed the advent of fewer new makes of automobiles than any previous year in the history of the industry since it has been of proportion to be recognized as an industry. There will be even fewer new makes in 1924, it is said. Many builders have either gone out of business, or else they are on very low production.

Only a few years ago there was but one manufacturer who offered a closed car at a very low price. The opening of the 1924 season finds more than 15 closed models selling at less than \$1,000, while there are three times as many at \$1,000 to \$1,500. The price for this type of car is probably around \$12,000, although cars specially designed and made to order can cost almost any fabulous amount.

For the past five years it has been freely predicted that the closed car eventually would be the standard form, and the experts still stand by that prediction although they say that it will take another five years at least before the closed body is developed to a point where it can be made as cheaply as an open body.

The painting of an automobile is a costly job and a long one, every coat taking hours of dry and a good paint job needing from 10 coats upward. The enamel is cheaper and quicker, for they are baked on, and when out of the oven are dry and ready for use.

This year for the first time the industry is using a new form of finish which is sprayed on, in color and not in black only, and which dries quickly. When dry it is said to be more durable than the old enamel. It is a new paint job, and the other finishes to be introduced soon will be good for two or three years, and there will be no discoloring, no streaking or spotting in the rain, and no checking of the paint after the car has been in use but a brief time.

More low-priced slices are promised, there having been two notable invasions of the class under \$1,000 during the past year. Some experts say that eventually only the very cheapest cars will be of the four-cylinder type, while others contend that the four will be further developed to give it the smoothness of the six. As it is, considerably more than one-half of the cars now built are fours, for one manufacturer turns out almost one-half of the total production and there are other large producers of that type.

Of approximately 85 builders of passenger cars, however, almost 70 per cent are turning out sixes, as against slightly more than 20 per cent that produce fours. The remaining 10 per cent build eight-cylinder cars.

Perhaps the most important and significant development in motor car construction of the year just closed and the year at hand is the progress made and in the making with four-wheeled brakes and the balloon tire. These features are not new in the sense that they have just been devised and adopted, for they have been developing for years, but they are new and distinctive so far as their use to any considerable extent is concerned. About a dozen manufacturers are offering balloon tires on the 1924 models and it is generally believed that it will be but a comparatively short time before the entire industry will adopt this form. Some 25 manufacturers are offering four-wheel brakes either as standard or optional equipment.

The experts say that the public will like and appreciate the new tires more than any other big motor car improvement. There are only a few sizes of real balloon tires, then there are those called semi-balloon, but all designs are for low pressure operation—not to exceed 30 pounds—so that the softness of the tire will give the added cushioning effect so long desired for easier riding. Certain changes in fender contour, steering and axles are said to be necessary in adopting the new giant tires.

Four-wheel brakes on every car, within a few years, is another promise or prediction of the experts. They are being taken up because of the additional safety they afford and also because of the longer life given to brake lining without frequent adjustment being necessary. The four-wheel brake has been in use something like 15 years, but the movement to popularize it was started only last year.

The two big developments in engines are the one centering about vibration and the other about oil dilution. Every possible angle of the vibration problem has been attacked, but attention has been given principally to the crankshaft design, the idea being stiffer shafts and more engine bearings. The oil filter is looked upon as the most promising device for reducing the ill effects of oil dilution.

All Southern California, a big and imposing number. It contains 144 pages devoted to the present perfection of California in general and Los Angeles in particular. What it shows more than anything else is a high order of civic pride. That is one asset which Los Angeles has in 100 per cent volume. It is reflected in the extraordinary number of the Times. The Los Angeles belief in itself is a good example for any other community. We may not all have orange groves but we can all have shade and sunshine and happiness here in Southern Wisconsin.

"Patriotism is not a commodity to be bought and sold," says one of the anti-bonus newspapers, in large headlines. No, it is not, and when we attempt to buy it at a dollar a day while powder makers and shoe manufacturers are piling up millions, we show mighty poor judgment as a nation.

"Patriotism is not a commodity to be bought and sold," says one of the anti-bonus newspapers, in large headlines. No, it is not, and when we attempt to buy it at a dollar a day while powder makers and shoe manufacturers are piling up millions, we show mighty poor judgment as a nation.

JUST FOLKS

By EDGAR A. GUEST.

THE UNSEEN SPIRITS.
It's the friends who come to call
Who make bright the room and the hall.

What see you in yonder chair
But the friends who've rested there?

Do they not still linger near
Who have once brought laughter here?

When a friend has left your door,
Would you say he'll come no more?

Once admitted, can you say
That he'll ever go away?

He shall come when you rejoice,
He shall answer to your voice.

Through the long years, smiling there,
He shall keep his favorite chair.

And as 'Times shall come and go
Many a friend these regions shall know.

They shall live and still be known,
Gracing everything you own.

For the memories we hold
Are what some call growing old.

(Copyright, 1924, by Edgar A. Guest)

SPUR OF THE MOMENT

By ROY K. LOUIEYON.

OUR OWN DAILY SHORT STORY

In Dubuque.

A New York physician who has recently transferred his activities to the Hub tells of a Bostonian who, like most of his townsmen, is a precisian in the matter of English, and who had consented not long ago to consult the afore-said doctor.

"What you need, more than anything else, is a tonic in the shape of fresh air," said the doctor.

Whereupon the Hubbitts waxed sarcastic and inquired:

"Before we proceed further, would you mind telling me what is the shape of fresh air?"

Calling some men "presidential possibilities" is another proof that there is nothing impossible in this world.

WHO'S WHO TODAY

ELEUTHERIOS VENIZELOS.

The most heroic figure in Greece today is Eleutherios Venizelos, "grand old man" of that nation, and premier since the recent departure, by request, of King George.

Venizelos, an outstanding figure in politics in his country for over a quarter of a century, is once more trying to place the government on a firm basis. Venizelos was prime minister of Greece early in 1915. He was heart and soul for the allies, as Greece was being rapidly forced to decide her policy. King Constantine (reigning the first time) was listening to the Kaiser, however, and the opposition of the king finally led to an open break between himself and Venizelos and the resignation of the noted statesman. In 1917, following the overthrow of the Constantinian government, Venizelos became head of the provisional government, and Constantine's second son, Alexander, became king.

In 1920, at a general election, Venizelos' government was repulsed, and Constantine returned to the throne. Alexander died. Venizelos represented his country at the Versailles conference. He visited the United States in the fall of 1921 to study political conditions. Since then he has been practically retired, content until the recent action of the nationalists.

HISTORY OF TODAY

TODAY'S EVENTS.

The 100th anniversary of the birth of Marie Duplessis, the original of "Camille," is to be observed in Paris today.

The 27th annual convention of the American National Live Stock association opened in Omaha today for a three-day session.

The time and place for holding the democratic national convention selected at today's meeting of the national committee in Washington.

The sugar tariff hearings before the tariff commission in Washington.

TODAY'S ANNIVERSARIES.

1777—Vermont passed a declaration of independence.

1811—Congress authorized the president to seize West Florida if a foreign power attempted to capture it.

1824—James Turner, governor of North Carolina and United States senator, died at Bloomington, N. C. Born in Virginia, Dec. 29, 1766.

1848—Russell Means, died in Washington, D. C., April 28, 1902.

1849—Legislators were introduced in the Missouri senate questioning the power of congress to legislate on slavery in the territories.

1859—First discovery of gold in Boulder canon in Colorado.

1904—The French government threatened the vatican, by prohibiting the collection of "Pope's pence."

1908—United States senate passed a joint resolution routing to China about \$15,000,000 of the Boxer indemnity.

ONE YEAR AGO TODAY.

Clashes between British troops and German demonstrators in the Ruhr.

Engagement announced of the Duke of York and Lady Elizabeth Bowes-Lyon.

TWO YEARS AGO TODAY.

Sir Frederick Kenyon, director of the British Museum, born in London, 61 years ago today.

Dr. W. A. P. Rogers, noted actor, born at Brunswick, Maine, 55 years ago today.

George H. Reynolds, noted banker, mentioned as one of the managers of the Coolidge campaign for the presidential nomination, born at Panora, Iowa, 53 years ago today.

LOOKING BACKWARD

FORTY YEARS AGO

Jan. 15, 1884.—The members of the fire department met at the western engine house last night and elected the following officers: president, James A. Patters, Water Witch Engine Co., vice president, Cyrus Miner, Sack Co.; secretary, W. G. McCall, Rescue Hook and Ladder Co.; treasurer, A. W. Eismann, Washington Engine Co.

THIRTY YEARS AGO

Jan. 15, 1894.—Officers were installed at the banquet and meeting of the Odd Fellows last night. Those who took office were A. H. Taylor, Fred Young, W. J. McPherson, W. H. Green, J. F. Hutchinson, John P. Wright, Jerome Howell, D. Van Aune, D. T. Kenyon, C. T. Winslow and W. C. Palmer.

TWENTY YEARS AGO

Jan. 15, 1904.—A. A. Jackson has called a meeting of the Early Settlers' club for Tuesday night. Many has enrolled in the Y. M. C. A. night school classes in penmanship, vocal music and bookkeeping. Instructors are J. S. Taylor and D. D. Manross.—Miss Ella Stout installed officers for the Rebekahs last night.

TEN YEARS AGO

Jan. 15, 1914.—The new Wilson hotel, will open Saturday night, with Edward H. Connell as manager. It is located at the corner of Pleasant and River streets.—A mass meeting to promote the fund for Morey hospital was held last night. W. S. Joffis presided, and W. H. Dougherty and Dr. W. W. Nuzum spoke.

LOVE, JOY, PEACE.

Impossibility, selfishness, greediness, faith, meekness, temperance, against such there is no law.—Gal. 5:22, 23.

Personal Health Service

By WILLIAM BRADY, M. D.

Noted Physician and Author.

THIS AGE OF RUSH

An article about the heart, suggests a reader, would interest everyone. This is true. How can a person tell if his heart is weak, a lay person?

This is the age of it. The rush itself is just a harmless little battle passed on a package you're a little different in feeling to something like that. Our fondness for rush here in America is akin to our habit of kidding ourselves about "work" and our penchant for custom of thinking of the "rush tension" of "big business" and the "nervous breakdown" from "overwork" and all that sort of thing.

Physiology will never become sufficiently popular, I fear, to overtake the ally old physiological absurdity of "nervous exhaustion"—as though the nerves were a source of energy instead of a mere system of communication. Even medical literature is strewn through with this and allied absurdities. There are thousands of unhappy mortals this very minute suffering from the utterly futile and unhelpful notion that their impaired health or incompetency is explained by "nervous" or "nervousness."

What is the rush? The only rush that manifests itself nowadays is the rush to get across the track before the train does. America today unquestionably holds the championship in long distance sitting. Thanks to the elevator, for one factor, everybody sits now to go wherever he used to walk.

The idea that the prevalence of heart disease is increasing in this country may be correct. As well as we can judge from mortality tables there does seem to be a mounting incidence of heart disease. This disease (which includes hardening of the arteries, chronic Bright's disease, angina, and most heart disease except valvular lesions) or at any rate there is not the steady decline in the death rate per hundred thousand population that is apparent in the mortality statistics of nearly all the other important diseases. But to ascribe this

to the "age of rush" is to ascribe it to a factor that is not even a factor.

Watering the Regular Body. Please inform me what quantity of water to drink daily. It should be given, how, whether warm or cool, and how much at each time? (Mrs. T.)

Answer.—At that age an infant requires daily an amount of water equal to one-fourth of his weight, most of it being in the milk. Nearly three-fourths of the weight of a young infant is water. Plenty of water is necessary for an infant to aid digestion and to keep the bowels and bladder in normal condition. To aid the function of the bowels and that of the kidneys, and in warm weather to prevent the child from becoming depressed and often fatal effects of excessive heat. Offer the nursing infant a small amount of water, or an infant over 3 months of age, three times a day regularly after regular meals. In the case of a child, then later from a cup; and allow all the baby to drink. Sometimes a baby cries without apparent cause. Is he thirsty? A drink of water will make a great hit with him. Thirst is really what ails a lot of unfortunate infants on whom some folk will "cold" and medicines even worse than cold.

ASK US

(Any reader can get the answer to any question by writing the Gazette Information Bureau, Washington, D. C., after applying the following information.)

Q.—Can you give me advice on legal, medical and financial matters. I desire to settle some of my family's troubles, not to undertake extensive research on any subject. Write on a separate sheet of paper, and enclose two cents in stamps for return postage. Give full name and address. All answers sent direct to the inquirer.)

Q.—Is term insurance issued to soldiers during the war still in force? Q. B. D.

A.—Such insurance is still good, but the protection will not extend beyond March 3, 1925. The Veterans' bureau says that all term insurance now in force must be converted by that time into one or more of the six types of permanent insurance issued by them. These include ordinary life, 20-payment life, 30-payment life, 20-year endowment, 30-year endowment, and endowment at the age of 62.

Q.—What are the dimensions of the backboard used in basketball and the shape of the basket from the floor? A. T.

A.—According to "The Official Basketball Rules for 1923 and 1924," the dimensions of backboards shall be six feet horizontally and four feet vertically. The baskets shall be nets of white cord suspended from black metal rings 18 inches inside diameter. These rings shall be in a horizontal position and shall be attached to the backboard by a cord or chain.

Q.—How much of an error is made in reading out laboratory work? A. T.

A.—Errors as large as 1-10 of a second sometimes occur, though the average error does not exceed 5-100 of a second.

Q.—How much do artificial legs and arms weigh? G. W. W.

A.—Artificial legs weigh about three pounds. Such a leg cannot be applied to a large person, but to one of medium size, the artificial leg is not as durable as one would be of heavier weight. The ordinary weight is four to five pounds. An artificial arm can be manufactured which would weigh a good deal less.

Q.—When did the French occupation of the Rhine begin and when did the American troops leave? M. H.

A.—The French occupation of the Rhine commenced Jan. 11, 1923. The advance guard of the French troops entered Bessen at 4:45 o'clock of that morning. The American troops left the Rhine land in January, 1923.

Q.—How long have people worn glasses? E. G.

A.—Spectacles were invented during the thirteenth century. Some authorities attribute them to Alessandro di Spina, a Florentine monk; others to Roger Bacon.

200 OUT OF WORK AS FACTORY CLOSES

Washington.—As the result of the Washington box factory closing its doors Friday night, 200 Washington residents are thrown out of work. No reason for the shutdown was given and the closing was a distinct surprise.

CAN'T REMOVE ACTIONS

Madison.—Criminal actions cannot be removed from a police justice court in the fourth class city and taken to the nearest justice court by affidavit of prejudice, the attorney general's department ruled in an opinion to District Attorney L. A. Barrett last Saturday.

Fight Rats

Rats are one of the greatest enemies of mankind. They carry pestilence and death wherever they go. They breed so rapidly that a single pair, if left unchecked, will increase with them or their offspring, at the end of three years will be the ancestor of more than 350,000,000 rats.

The destruction caused by these pests amounts to more than the gross output of 200,000,000 dollars. Fight this enemy of man scientifically. If you don't know how to do it, send your rat problem to our Washington Information Bureau. You will be sent the free government rat poison, and a card and mice. There is no charge except two cents in stamps for return postage. Write your name and address clearly.

Frederic J. Haskin, Director, The Janesville Daily Gazette Information Bureau, Washington, D. C.

I enclose herewith two cents in stamps for return postage on a free copy of the Rat Booklet.

TIPS FOR TAXPAYERS

No. 12.

Deductions for business expenses form the largest claim in the returns of many taxpayers. All the ordinary and necessary expenses incurred in carrying on any business, trade, profession, or vocation are allowable deductions.

Typical expenses of a mercantile establishment are amounts paid for hire of employees, rent, light, heat and water, telephone, advertising, insurance, delivery expenses, the cost of operating delivery wagons and trucks, and incidental repairs to such vehicles. The expenses of a manufacturing business include salaries, rent, light, heat, and power, selling cost, administration, and similar charges.

A professional man may claim as deductions the cost of supplies used by him in his practice, expenses paid in the operation and repair of an automobile used in making professional calls, dues to a professional society, subscriptions to professional journals, office rent, the expenses of fuel, light, water, and telephone used in his office, and the hire of assistants.

The farmer may deduct all amounts paid in the production and harvesting of his crops, including labor, cost of seed, fertilizer used, cost of minor repairs to farm buildings (but not the dwelling), fences, and similar small tools used up in the course of a year or two.

For business expenses, when the trip is solely on business, including the entire cost of meals and lodgings while away from home, a taxpayer may deduct the cost of travel. Deductions for business expenses must have certain qualities to be allowable. They must relate to a business, trade, profession, or vocation in which the taxpayer has invested time or money for the purpose of a livelihood or profit. A business expense carried on by a taxpayer, even if it involves activities conducted by employees, is not a business expense if more than one trade or business and chain a deduction for the business expense is not allowed.

NURSE CONCLUDES WORK THIS WEEK

Miss Alice Glenn has entered upon her last week as Red Cross school nurse in Janesville, a position she has held for approximately four years. Her successor has not yet been announced by the city manager. He will make the appointment and the new nurse will become a municipal worker paid by the city, the Red Cross having decided to discontinue the work on account of lack of finances. Miss Glenn finishes her duties in Janesville Saturday, and will go from here to Wheaton, Ill., to become nurse for the Du Page Tuberculosis society.

POTAWATOMIES TO GET MUCH CASH

Washington.—Under a bill introduced by Senator Owen, democrat, Oklahoma, himself an Indian, an appropriation of \$1,517,248.75 is appropriated and paid to the Wisconsin band of Potawatomi Indians, residing in Oklahoma.

This would be in final settlement for the Potawatomi share of the tribal funds under treaties between the Potawatomi nation of Indians and the United States, and which shares were directed to be retained in the treasury of the United States to the credit of the Potawatomi Indians by the act of congress of 1864.

FOX TO SPEAK AT BUREAU CONVENTION

George A. Fox, secretary of the Illinois Agriculture association, will be the main speaker at the annual convention of the Rock County Farm Bureau in Janesville on Jan. 20. His acceptance to an invitation to speak here was received Tuesday morning by H. C. Hemmingsway, secretary.

THE H

Busy Man's Sport Page

By FRANK SINCLAIR

THE IZAAK WALTON league is not yet a year old, the organization has a list of 250 members on the roster of the Janesville chapter. It is the duty of each of these men who have joined the league to check to Secretary Edward H. Hlyzer and keep the good work going. Not one of them should drop out, but instead not only should renew their membership but should get out and work for new material. The league must strive harder during the next year to put over the plans it has in mind. Through the winter months there is not much to do, but there should be plenty of work for the outdoor lovers in cooperating and working the state conservation commission and in laying the plans for the time when the legislature does meet again. Wisconsin is in a bad way along game lines, from all reports, and something must be done to maintain for posterity what has been given to the Badger commonwealth.

IF MILADY would have the perfect figure, she should go on the hiking path. Cut out the indoor exercises, try out and get out into the brisk air and walk. Youth, muscularity and beauty may be preserved by plodding two or three miles a day, says Dr. Alvah H. Doty of New York, health expert. For the leisurely, a jog trot is the best. It is a daily habit, and when done right gives a glow to the skin, brings good digestion and makes sleep peaceful. If you are employed in office or shop during the day, take your walk before the evening meal, in a comfortable pace and wearing comfortable shoes with soles that are not very thin. Whether man or woman, the walk practiced daily gives pep and kills that lousy feeling.

It begins to look as if the good old U. S. A. is going to have a bigger competition this year for the Olympic games. While the United States has been sitting back and glorying in its reputation, European nations, and especially Finland, have been stepping up and developing material. Some of it in the United States. Some of this condition is due to the fact that amateur athletes in the United States have been looking for the Olympic games for a long time. They have not attracted so well as they did in the years gone by. They have not attracted so many competitors as before. But they have been of great interest to spectators. The more spectacular sports of football and basketball have jumped into the limelight. It seems strange that the organizations as the Amateur Athletic Union and the Amateur Athletic Federation have confined their efforts so largely to the bigger cities. Every community in the nation should have a place for these organizations to have their branches.

Wisconsin ski team enters international meet at Gary, Ind., next Sunday. Coach John Picta, Itasca, is also entered.

American Olympic skating team left Paris for Chamonix.

South Pacific branch of A. A. U. demands special A. U. committee reinstates Charles Padlock, champion sprinter, at once.

THROCKLEY LOSES.

Brooklyn "Reds" and boys' basketball teams were defeated by Oregon teams Friday night at the local armory.

Home Talent League in Annual Meeting, Tuesday

EXPECT STOUGHTON TO LEAVE LEAGUE; ASK RULE CHANGES

The annual meeting of the Southern Wisconsin Home Talent Baseball league will be held in the editorial rooms of the Gazette office at 8 p. m. Tuesday. Officers for the ensuing year will probably be elected and plans started for getting things lined up for another successful season.

Delegates are expected from Janesville, Port Adams, Edgerton, Cambridge, and Deerfield.

A movement is on foot to let up on the ruling that requires every team to use only players who live within their cities or a radius of the town. Stoughton is particularly desirous that a change in the law be made permitting the hiring of a couple of pitchers, and perhaps a catcher, according to H. T. Bigelow of that city, formerly an outfielder with the Sumner Tractors of Janesville.

Such a change in the Stoughton is not likely to join the circuit in 1924.

Talk More Territory

Cambridge is ready to come into the group again, and will ask that the towns be given more territory from which to select players, or be allowed an outside player or two, it is announced at headquarters here.

The question of the matter of the schedule and consideration of applications for franchises in the circuit will be among the matters to be gone over.

Badgers Beat Indiana Five

Madison — Wisconsin triumphed over Indiana in a spectacular basketball game here Monday night, 28 to 27. Diabolo, stellar Badger guard, in a desperate effort made a beautiful basket from beyond the center of the floor and won the game.

The Hoosiers had a four point lead until the last two minutes of play. The Badger quintet was handicapped without the services of Spooner, regular forward, who is recovering from a knee injury.

Indiana jumped into the lead soon after the first whistle sounded, when Lorber, backed behind the Cardinal guards for a pot shot under the basket. A few seconds later he repeated the same performance.

Work of Doyne and the speed of the half, 15 to 11.

Summary:

Wisconsin	Indiana
Varney, rf., 3	Logan, rf., 4
Blom, lf., 1	Harrison, rf., 0
Wickman, c., 0	Coffey, lf., 0
Varney, rf., 0	Coffey, lf., 0
Gibson, c., 2	Lorber, rf., 4
Diabolo, lf., 1	Knox, lf., 0
11 6	11 7

MICHIGAN, 24; ILLINOIS, 23.

Ann Arbor, Mich.—Michigan defeated Illinois here Monday night by a score of 24 to 23 in the first conference basketball game of the season for the Wolverines, before a crowd of more than 8,000. Floor work of Doyne and the speed of the entire Illinois team featured the contest.

Illinois went into the lead two or three minutes before the end of the game and Hackerty of Michigan carried the ball down for a try at a basket. He missed but again obtained the ball and made the basket which won the game.

Triangles Beat

Pen Five, 16-12

In a thrilling contest at the local "Y," the Y. M. C. A. Triangles defeated the Parker Pen team, 16 to 12. It was a city league contest. The count at half time was 4 to 4 for the Triangle five.

Wednesday night, two games are scheduled in the circuit. The Parker Pen will clash with the American Melrose. The Triangles will meet the 22nd Tank Corps.

Summary:

Triangles	Parker Pen (12)
Seigren, rf., 4	Johns, lf., 0
Griffin, lf., 2	Leary, rf., 3
Swan, c., 0	McElman, lf., 0
Burges, rf., 0	1 0

BRINGING UP FATHER

Gazette Ice Derby to Be Held Feb. 9

The third annual Gazette ice skating derby will be held on Saturday afternoon, Feb. 9. The place has not been decided and will depend upon the condition of the ice at that time. It is hoped to make the racing meet this year the greatest to date. The cooperation of the high school, public schools, Catholic schools and the Y. M. C. A. and the Y. W. C. A. is being asked. Merchants are also being requested to lend their aid. Last year there were about 60 entries.

This year, it is hoped to have several hundred if the skaters will help in putting this event over in a big way.

Medals for Prizes

There will be nine events this year. Gold medals will be given for first places, silver medals for second places and bronze medals for third place winners. While skates were given in the past, it is thought medals will be more attractive awards.

A nominal entry fee of 10 cents will be charged. The meet will be open only to amateurs.

The events will be:

Seventy-five yd. dash for boys under 12 years; 100 yd. dash for boys under 12 to 15; 150 yd. dash for boys under 12 to 15; 100 yd. dash, girls under 12; 75 yd. dash, girls under 12 to 15; 100 yd. dash, girls of 13 and over; 140 yd. dash, men of 18 and over; mile, men of 18 and over.

Arrangements are now being made by the Janesville Hockey club to book a game with an out of town team that afternoon, to give an added attraction to the meet. If it can be done, the University of Wisconsin team will be brought here for that afternoon. Fancy skating will also be on the program.

It is expected that the entry will be increased largely this year. The ice has been so good the last three years that the number of skaters has been added by the hundreds. The more competitors the greater the competition will be and the better chances for everybody who takes part.

Plenty of Training Time

The early lack of ice has been so noticeable here that the date has been set at Feb. 1, in order to give the skaters every chance to train for the big event. There are three weeks between now and the derby.

It is the Gazette's policy to encourage youngsters in wholesome outdoor recreation and to furnish amusement for Janesville sport loving public.

The derby is one of the ways in which the boy and the girl may find the opportunity to become interested in skating.

There are many more skaters in this city than have taken part in this event in the past. It is hoped that these boys and girls, men and women, will enter the 1924 event and boost this beneficial and interesting sport.

The officials will be announced later.

Clip the entry coupon, sign it, and mail or bring it into the Gazette with your 10-cent fee.
